

# TLC on the World Wide Web

Tender Learning Care

1818 Lake Boulevard

Davis, California 95616

---

---

Dear Parents;

July 12, 2013

Our new web cameras up and operating! The url is:

**<http://tlccams.tender-learning-care.com:88>** (for desktop computers)

Details and passwords for connecting your computer, tablet or web-connected phone are available to enrolled parents from the teachers.

The web cameras are password protected and we have received permission from the currently enrolled parents to upload the images to the internet. The cameras allow parents who have access to a computer, tablet or cell phone connected to the internet to see activities in the TLC classrooms “live” through use of the password. Cameras are live all day, Monday through Friday. We also have some archived photos and videos, to view. All the photos and videos are password protected, except for occasional pictures and videos, selected by the Director, to use on the web page. The password will be changed occasionally; please help us keep it secure.

The form below, for new enrollments, describes the procedures for web cam use and requests parental concurrence.

Shirley Huddleson  
Owner/Director

---

## **I understand and agree with the following procedure:**

- Tender Learning Care is using web cameras in each classroom to upload pictures and videos of children taken during the day to the TLC web site, for the use of parents enrolled at TLC.
- Access to these pictures and videos is limited to parents with children currently enrolled at TLC, through the use of a password, changed occasionally, to maintain security.
- TLC provides the passwords only to parents with children currently enrolled at TLC. Parents may provide the password to other family members with concurrence from the TLC Director.
- Occasional pictures and videos selected by the Director are published on the publicly available portions of the TLC web site.

**My signature below indicates my acceptance of the procedure described above.**
